

Change Leadership Skills

Tools & Techniques

Change Leadership Skills Self-Assessment

Purpose :

To help the Change Leader assess his/her change leadership skills.

Potential use :

1. Identifying the main behaviors and typical actions for each type of change leadership skills, thus helping the change leader understand concretely what is required in behavioral terms to lead change;
2. Helping the change leader become aware of his/her strengths and weaknesses on the three critical change leadership skills;
3. Providing the change leader with a basis to start planning the development of those skills which are missing or are less present.

Change Leadership Skills

Timing :

As change leadership skills are critical to successfully implement change, this self-assessment should be completed early on in the change process in order to identify areas of improvement, if any. Also, the change leader might want to discuss his/her results on the self-assessment with the change sponsor or master change agent before he/she starts working with the team on the change initiative.

Step 1. Getting Ready for Change

Tools & Techniques

Steps:

1. On the *Change Leadership Self-Assessment* are 30 statements describing various change leadership behaviors. Please read each carefully. Then look at the rating scale and decide *how frequently you engage in the behavior* described. Here is the rating scale that you will be using:

- 1 = Almost never
- 2 = Once a while
- 3 = Sometimes
- 4 = Usually
- 5 = Almost always

In selecting each response, please be realistic about the extent to which you *actually* engage in the behavior. Do *not* answer in terms of how you would like to see yourself or in terms of what you should be doing. Answer in terms of how you *typically* behave - on most days, on most projects, and with most people.

Change Leadership Skills

Steps (cont'd) :

For each statement, decide on a rating and record it in the blank to the left of the statement. When you have responded to all thirty statements, turn to the scoring key to calculate your score. Note that to each type of skills correspond 10 questions. For each type of skills you therefore have a possible range of 10 to 50 points (10: you almost never engage in those behaviors; 50: you almost always do).

2. Once you have calculated your score on each of the three skills (refer to scoring key), you may go to the *Change Leadership Skills Action Plan* to build a plan of action to improve your change leadership skills; you might want to refer to the checklists *Development of Leadership Skills (Technical, Symbolic, Political)* for suggestions on how to develop and improve your change leadership skills.

Tips:

The frameworks "Leadership Skills for Strategic Change", "Technical Skills", "Symbolic Skills" and "Political Skills" on pages ID-I-30 to 33 can also be used to build the plan of action to improve your change leadership skills.
